Opening July 2022

Our Learning Environment

A Place to Grow offers a nature-based learning environment in a warm, loving, and community-focused atmosphere. Our school is set on 28 wooded acres along the Oyster River and is co-located with Harmony Homes Assisted Living Facility. Our location allows us the flexibility to explore the curriculum while in nature and the ability to share experience with our elders. A monthly theme-based curriculum is used to guide the daily activities throughout the center.

Curriculum and learning opportunities for children are designed to meet the NH Early Learning Guidelines.

A Place to Grow offers my child the opportunity to learn in nature, but it's so much more than that! My child was well prepared for Kindergarten.

Family Member

Meet Ms. B

Ms. B has been working in early childhood education since the age of five when she was paid 50 cents every Wednesday for helping a neighbor with her children. Brynn is a qualified teacher and has been working in a center based environment for the last five years. She loves playing volleyball, hiking, fishing, and gardening. Brynn looks forward to the affiliation with Harmony Homes because children bring such joy to senior citizens when they are together in the community. This is an amazing opportunity to help grow her experience and knowledge of children as well as a business owner, and especially create new and meaningful relationships with the local families and children.

Tuition

AFFORDABILITY

Harmony Homes felt strongly about providing affordable on-site childcare for its employees. Tuition rates will be set each July and will be based on the NH Childcare Scholarship Tuition Rates.

NH Child Care Scholarships are accepted.
